

"I'm so glad there is a LEAP course for Long-Term Care. Half of Canadians die in long term care, and this course should be offered to all health care workers in this setting."

- Dr. Claire N., Physician

Established in 2001, Pallium Canada is a not-for-profit organization whose mission is to strengthen Canada's ability to provide home and community-based palliative care.

We provide education and support to healthcare professionals and family/neighbour carers so that every Canadian who requires palliative care will receive it early, effectively and compassionately.

We thank Health Canada who is a primary supporter of our LEAP courses and resources.

Palliative care is about improving quality of life. You can help make that happen.

LEAP LTC Participants have successfully implemented 79% of the changes they committed to making in their daily practice.

Take part in Canada's leading course on palliative care for health care professionals

"My thoughts and understanding of the palliative approach to care has greatly enhanced. Prior to this course, I had little understanding of a palliative approach to care."

- Linda N., Social Worker

LEAP LTC is a two-day course that provides learners with the essential skills and competencies of the palliative care approach.

This course takes an interprofessional approach and promotes teamwork and collaboration among different healthcare professionals who work in long-term care and nursing homes.

Who is it for?

LEAP LTC is ideal for any healthcare professional (e.g. physicians, nurses, pharmacists, social workers, home care nurses, etc.) as well as personal support workers (PSWs) or care aides working in long-term care and nursing homes.

Course Features

- This Group Learning program has been certified by the College of Family Physicians of Canada for **up to 26 Mainpro+ credits.**
- Two days, 13 hours in total
- Interprofessional approach
- Face-to-face learning with group discussion and case studies
- Course materials include a downloadable manual and the best-selling resource, the Pallium Palliative Pocketbook
