

“The facilitators were very knowledgeable and more importantly had a wealth of experience sharing past cases and pearls of wisdom. The format was excellent with plenty of group discussions.”

- Dr. David M., Physician

Established in 2001, Pallium Canada is a not-for-profit organization whose mission is to strengthen Canada’s ability to provide home and community-based palliative care.

We provide education and support to healthcare professionals and family/neighbour carers so that every Canadian who requires palliative care will receive it early, effectively and compassionately.

We thank Health Canada who is a primary supporter of our LEAP courses and resources.

Palliative care is about improving quality of life. You can help make that happen.

LEAP Mini Participants have successfully implemented 70% of the changes they committed to making in their daily practice.

Take part in Canada’s leading course on palliative care for health care professionals

“The participant manual was helpful, all areas were neatly covered. The group discussion with examples was excellent and the video vignettes were very effective to aid learning.”

- Jennine G., Nurse

LEAP Mini is a one-day course that provides learners with the essential skills and competencies of the palliative care approach.

This course takes an interprofessional approach and is ideal for established teams looking to enhance teamwork and increase collaboration amongst providers in different agencies.

Who is it for?

LEAP Mini is ideal for any healthcare professional (e.g. physicians, nurses, pharmacists, social workers, home care nurses, etc.) working in the community whose primary focus of work is not palliative care but who provide care for patients with life-threatening and/or life-limiting illnesses.

Course Features

- This Group Learning program has been certified by the College of Family Physicians of Canada for **up to 16.50 Mainpro+ credits**.
- One day, 8.5 hours in total
- Interprofessional approach
- Face-to-face learning with group discussion and case studies
- Course materials include a downloadable manual and the best-selling resource, the Pallium Palliative Pocketbook
