

“This was an excellent learning opportunity and I received some very valuable information that will help me when going to these patients. I hope the course will help shift the focus on support care by EMS as we become more aware of how we can help these patients in their journey.”

- Sandra O., Paramedic

Established in 2001, Pallium Canada is a not-for-profit organization whose mission is to strengthen Canada’s ability to provide home and community-based palliative care.

We provide education and support to healthcare professionals and family/neighbour carers so that every Canadian who requires palliative care will receive it early, effectively and compassionately.

We thank Health Canada who is a primary supporter of our LEAP courses and resources.

Palliative care is about improving quality of life. You can help make that happen.

Palliative Care is everyone’s business

LEAP Paramedic is a blended learning program that provides learners with the essential skills and competencies of the palliative care approach.

This course takes an interprofessional approach, helps link paramedics and Emergency Medical Service professionals to local palliative care resources and aims to change the practice to include palliative care on-site.

Who is it for?

LEAP Paramedic is ideal for paramedics and Emergency Medical Service professionals.

Course Features

- Blended program
- 6-8 hours of online learning
- 6 hours case-based face-to-face discussions
- Interprofessional approach
- Course materials include a downloadable manual and the Pallium Resource Web App.

Course Structure
